

BLUE MOUNTAIN COLLINGWOOD (2019)

Sandra, a single Mom of two young children, a daughter 6 and a son 8 years old. Sandra was diagnosed in 2018 with Metastatic breast cancer that spread to her lungs, bone, liver and brain.

Sandra endured domestic violence for many years and left home to the protection of a women's shelter.

With only a few weeks to live, her and her children had been through so much and all she wanted was to spend some quality time having fun with her children.

With the help of Sandra's very dear friend, Dreams to Memories arranged for a fun-filled weekend getaway to Blue Mountain resort in Collingwood.

Sandra and the children were met by the incredible staff at Blue who greeted them with open arms and got them going on their weekend adventures.

The children spent time at kids camp learning how to ski.....first day of ski season at Blue! They did great!!

While the kids were skiing Sandra had time to relax with royal treatment at the Scandinavian Spa.

They spent quality time in the evenings and even went to the Santa Claus parade.

Sandra was overwhelmed with the kindness and caring of the Blue Mountain team that went above and beyond to make this trip special and made a profound impact on her and her children.....Memories that will long be remembered.

Sandra was also thankful for Dreams to Memories giving her the opportunity to spend quality time with her children and having an unforgettable experience.

Sandra's last wish was to be able to spend Christmas with her children. Her strength was amazing. Sandra passed Dec. 26, 2019
