

COTTAGE MEMORIES IN BANCROFT (2019)

Cindy, a Wife and Mom of three young children ages 6, 7 and 8, was diagnosed with metastatic breast cancer in 2015.

Cindy chose a quiet cottage vacation with her family in Bancroft, Ontario.

They enjoyed waking up to watch the sunrise, and started each day making special memories together. They swam, went paddle boating, kayaking, fishing, had campfires, roasted marshmallows and relaxed in the beauty of the north. Cindy said this trip helped her daughter overcome the fear of water.....what a beautiful memory!

Cindy sent a thank you:

"I'm really happy for this trip and my family being together and making memories with them, thank you very much. God bless you all for helping people like me forget what we are going through in life."
