

LIVING CELEBRATION OF LIFE (2019)

Chontelle, a Wife and Mom of two children 13 and 16 years old, was diagnosed in 2018 with Endometrial Cancer. In 2019 her kidneys began to fail.

Chontelle applied to Dreams to Memories to help assist her fulfill a unique wish; **A living Celebration Of life.**

Chontelle wanted to celebrate her life while she was still able to enjoy the love of Family and Friends and create special memories with her loved ones.

In the midst of Covid, Chontelle got her wish and with all the strength she had, managed to make it to the Celebration with over 250 guests at Living Waters Resort in Collingwood.

Her husband James said:

“It was a huge success but she almost didn’t make it because she wasn’t feeling up to the travel plus the potential exhaustion that she would endure from the party itself. With a bit of coaxing she decided to go with the intent of staying for 30 minutes. Once there she stayed for over three blissful hours. Everyone cheered her entry and waited in a long line to greet her.

It was so special seeing her with people she loved and adored all showing their happiness that they got the opportunity to see her was beautiful. She even invited old boyfriends. The smile on her face was precious.”

Strength and determination prevailed.

James said it was truly a wonderful evening and thankful for the help from Dreams to Memories. It may never have happened.
