

PUNTA MITA MEXICO (2019)

Lisa, a Wife and Mom of two children 14 and 16, was diagnosed with Metastatic Pancreatic Cancer stage 4.

Lisa and her husband had been saving for a trip to Mexico but with her cancer wasn't sure if it would be possible.

With the help from Dreams to Memories the family was able to take their dream vacation and got away from the cold Dec. weather.

They were very grateful for what Lisa says was an *“amazing perfect trip and the opportunity to have it.”*
